Priority:	4-Medium	Due date:	
Assignee:	Hardi B		
Application:		Severity:	4-Low
Description Steps to reproduce:- (make sure multiple farms should be there under "my farms") 1-Open farmer click on my farms. 2-Slide the farm-1 slowly and leave in between farm-1 and farm-2. 3-Observe that two farms are displayed partially on the screen. Actual result- We are able to see two farms partially on the screen. Expected result- Sliding between two farms should be smooth and it should not allow to stop in between two farms.
