

Agritek - Bug #112

BT web: Search functionality is not working

09/01/2020 05:17 AM - Maheswar Reddy

Status:	Closed	Start date:	09/01/2020
Priority:	3-High	Due date:	
Assignee:	Vignesh A		
Application:	BT	Severity:	3-Medium
Description Steps Reproduce: bt web: 1. In dashboard click on demand to production enter crop name in search bar search button is not working 2. Click on land reports in left menu click on table view if we enter owner name click on search button owner details are not displaying 3. Click on land reports in left menu click on map view if we enter owner name in search bar click on search button map is disappearing after that it's showing no data found 4. Click on sos enter farmer mobile number in search bar then its showing there is no record here 5. Click on farmer reports in left menu select list view enter farmer name in search bar it's showing there is nothing here 6. Click on rbk in left menu select summary first rbk details are displaying then enter rbk name in search button table is disappearing automatically Expected Result: search functionality should work Actual Result: Search functionality is not working
