

AP Agritek - Bug #1707

Agritek app: Potential yield value is displaying in kg under verify crop. (while crop booing by default it will select "quantal")

08/27/2021 01:40 PM - Pragati Patil

Status:	New	Start date:	08/27/2021
Priority:	3-High	Due date:	
Assignee:		Spent time:	0.00 hour
Application:		Severity:	2-High
Description Steps to reproduce: 1-Open the agritek app then click on the cultivator. 2-Submit one crop. 3-Submit the crop from resubmit. 4-go to verify crop 5-Potential value is displaying in kg under verify crop. Expected result: Potential yield value should display in quantal. Actual result:-Potential yield value is displaying in kg under verify crop. (while crop booing by default it will select "quantal")
