Description

Steps to reproduce:-
1-Open agritek app click on the cultivator
2-Fill all the data (make sure loan and insurance request "YES")
3-click on the submit button after display the insurance page
4-click on the back button
5- The registration page is displaying and without entering insurance data status is displaying YES

Expected result:
Should display home pages after clicking the insurance request page and without submitting a request form should not display that status yes

Actual result:
The registration page is displaying after clicking the back button from insurance form and without filling, loan request form status is displaying "YES"
