Trader - Bug #578

Crop and category issues

11/10/2020 01:25 PM - Noor Zahara Errum

Status:	New		**Start date:**	11/10/2020
Priority:	4-Medium		**Due date:**	
Assignee:	Lalitha Chaitanya A			
Application:			**Severity:**	

Description

1. open seller/trader
2. click on add sale
3. select category as vegetables
4. select crop

Expected result
duplicates should not be there
Root vegetables should present only in root vegetable category
hibiscus and lotus are should be in flowers
same crops present in multiple categories

Actual result
Few crops are duplicates
Onion, potatoes, beetroot are root vegetables but present in vegetables
hibiscus and lotus are in vegetables
same crops present in multiple categories

History

While adding crops from agrikb..We should not enter duplicate data.Here whatever comes from the agrikb. I am displaying here.

#2 - 12/24/2020 03:28 PM - Lalitha Chaitanya A

Categories should come from Agrikb.
